Egor Poderiagin

Gender: Male
Date of Birth: Nov. 25, 1992

Website: https://crazyrussian.pro/
Skype: egor777ka
Phone: +66 855 950 847
Email: egor@crazyrussian.pro

Living now: Khon Kaen, Thailand
Citizen: Russian Federation

Preferred Position: Software Developer

Employment: full time, part time, project work
Work schedule: remote

Experience:

September 2021 - April 2024 2 years, 7 months	**Hyperskill (Stepik | Stepic)** https://hyperskill.org/ | Prague, Czech Republic | Delaware, USA **Backend Developer** Development of the backend part of a web application that provides access to training courses through the web and mobile applications. Configuring and development integrations with third-party and internal services. Writing unit tests and documentations.
January 2021 - August 2021 7 months, 1 week	**Maxiru** https://maxiru.com/ | Boca Raton, FL, USA **Lead Backend Developer** Development of the backend part of the service for cruise lines. Technical communication with the client. Decision making and planning for project architecture development. Participate in establishing rules and processes to improve team productivity. Assist Project Manager in preparing stories/tasks, planning sprints, organizing quick help in case if the customer encounters difficulties.
December 2019 - December 2020 1 year	**Private Practice / Freelance** Remote **Lead Developer** Backend development of web applications(Django, aiohttp). Task decomposition, managing backend developers, code review. Administering k8s clusters. Consulting and brought the infrastructure and code into compliance with PCI DSS.
November 2017 - November 2019 2 years	**Gefco** https://ru.gefco.net/en | Moscow, Russia **Senior Developer** Full-stack development of CRM systems for internal use, making integration with external systems.(Django, ExtJS, Angular, RabbitMQ)
August 2017 - October 2017 2 months, 4 weeks	**JSC Tinkoff Bank** https://www.tinkoff.ru/eng/ | Moscow, Russia **Developer** Worked as a Developer in the Smart Online Services Development Unit of the Customer Relationship Management Systems Development Department of Information Technology.(Tornado, PHP, Django, JS)

October 2015 - March 2017 1 year, 5 months	**LTD RE:POINT** https://repoint.io/	Novosibirsk, Russia **Python developer** I develop the back-end of websites and REST API for mobile applications in the projects for private customers.(Django, Tornado)
June 2015 - October 2015 4 months, 1 week	**JSC Bars Group** https://bars.group/	Kazan, Russia **Developer** Developing and support program products writed using Django and ExtJS for government structures.

Education:

2008 - 2012	**Stavropol Communication College** http://stvcc.ru/	Stavropol, Russia **Software for Computers and Computer-Aided Systems** Diploma

Certificates:

03/20/2023	Managing Kubernetes Applications with Helm (LFS244) by The Linux Foundation
03/16/2023	Service Mesh Fundamentals (LFS243) by The Linux Foundation
03/14/2023	Cloud Native Logging with Fluentd and Fluent Bit (LFS242) by The Linux Foundation
02/20/2023	Monitoring Systems and Services with Prometheus (LFS241) by The Linux Foundation
01/18/2023	ISO 24801-2: Diver Level 2 -- Autonomous Diver(Open Water) by PADI
11/29/2022	Certified Kubernetes Security Specialist (CKS) by The Cloud Native Computing Foundation (CNCF)
11/22/2022	Kubernetes Security Essentials (LFS260) by The Linux Foundation
11/23/2021	Kubernetes for Developers (LFD259) by The Linux Foundation
11/11/2021	Certified Kubernetes Application Developers (CKAD) by The Cloud Native Computing Foundation (CNCF)
09/21/2021	Certified Kubernetes Administrator (CKA) by The Cloud Native Computing Foundation (CNCF)
09/21/2021	Kubernetes Fundamentals (LFS258) by The Linux Foundation
04/14/2020	M103: Basic Cluster Administration by MongoDB University
04/04/2020	M001: MongoDB Basics by MongoDB University
09/27/2019	AI For Everyone by deeplearning.ai on Coursera
01/27/2019	Getting Started with Google Kubernetes Engine by Google Cloud Training on Coursera
09/16/2018	LFS171x: Blockchain for Business - An Introduction to Hyperledger Technologies by LinuxFoundationX on edX
09/04/2018	LFS170x: Blockchain: Understanding Its Uses and Implications by LinuxFoundationX on edX
07/01/2018	Mobile Web Specialist by Udacity, co-created with Google
05/19/2015	DAT201x, Querying with Transact-SQL by Microsoft on edX
05/01/2015	M101P: MongoDB for Developers by MongoDB University
08/15/2014	LFS101x Introduction to Linux by LinuxFoundationX on edX
05/24/2014	6.01x, Embedded Systems - Shape the World by UTAustinX on edX
03/18/2014	Programming Mobile Applications for Android Handheld Systems by University of Maryland, College Park on Coursera
12/09/2013	An Introduction to Interactive Programming in Python by Rice Univercity on Coursera

Key Skills:

Python, Django, Django Rest Framework, GraphQL, Git, TDD, GitOps, k8s, k3s, Nginx, PostgreSQL, VueJS, Angular, MongoDB

Additional Information:

For the last nine years most of the time wrote backends in python(Django, Celery, DRF, asyncio, pydantic, etc). But also not shy to dive into technologies unknown to me. As a full-stack developer I wrote frontend on Angular and ExtJS (versions - 3.4 and 4.2). I was engaged in DevOps tasks from setting up proxies on virtual server to building

Kubernetes clusters with GitOps configuration. I'm CKA, CKAD, CKS certified by the by The Cloud Native Computing Foundation (CNCF).

I like to learn new things, and for a better understanding of new technologies, I do pet projects. I love open source, and sometimes I make pull requests to projects that I'm using in my work. You can have a look at my GitHub account: https://github.com/akay7/
